*“The Right to Privacy?”*

**Thursday, June 16, 2011 at 7 pm**

***Our Lady of Mercy High School***

*Blossom Road, Rochester, NY*

Based on her new book, Dr. Smith’s talk will address the way in which a distorted view of freedom dominates various U.S. Supreme Court decisions on life issues under the guise of “the right to privacy.” Pope John Paul II, in *The Gospel of Life*, identified how this distorted view is one of the roots of the “Culture of Death.”

Learn about some surprising connections between contraception, abortion, assisted suicide and same-sex unions.

*Dr. Janet E. Smith holds the Father Michael J. McGivney Chair of Life Ethics at Sacred Heart Major Seminary in Detroit. She publishes and speaks nationally and internationally on Catholic teachings regarding sexuality and bioethics.*

***Reception to follow with gourmet coffee bar and desserts.***
